

Türk Anneler Derneği Anaokulu eSafety Label Action Plan:

- **Infrastructure:** Review and update the school's internet and network infrastructure to ensure it is secure and can support secure online activities.
- **Student and Staff Access to Technology:** Implement controls to ensure that students and staff only have access to appropriate online resources and that their online activities are tracked and recorded.
- **Data Protection:** Implement policies and procedures to ensure personal data is collected, stored and used in accordance with the General Data Protection Regulation (GDPR).
- **Software Licensing:** Ensure that all software used by the school is licensed and complies with the school's software license agreements.
- **IT Management:** Assign a designated IT Administrator to ensure the school's IT infrastructure and resources are effectively managed and maintained.
- **Exercise:** Develop a code of conduct and guidelines for online behavior to be followed by students and staff.
- **Extracurricular Activities:** Develop and implement a program of extracurricular activities to support students' learning about internet safety and responsible online behavior.
- **Support resources:** Identify and establish relationships with external organizations such as the National Cyber Security Center or other e-security organizations to provide additional support and guidance.
- **Staff Training:** Provide staff with regular training on internet security, data protection and IT management to ensure students are equipped to support their safe and responsible use of technology.
- **Evaluation:** Regularly evaluate the effectiveness of the eSafety Label Action Plan and make any necessary changes to ensure the school continues to meet eSafety Label requirements.

This plan is designed to ensure that the school is equipped to meet eSecurity Label requirements by reviewing and updating the school's internet and network infrastructure, implementing controls to ensure online activities are secure, enforcing data protection policies, ensuring compliance with software licensing.
